

REMARKS

This is a full and complete response to the outstanding Official Letter. The Examiner has required an election of species grouping the different species into thirteen groups as graphically seen in the figures. The applicant herewith elects to continue prosecution on the Species III as graphically seen in Figure 5. The claims readable on this species are claims 1 and 2. This election is made without traverse.

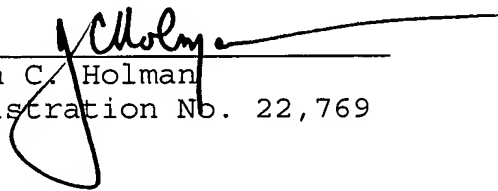

It is understood that if a generic or subgeneric claim is found allowable in this case that the claims to the non-elected species depend from or contain all the limitations of, a reasonable number of further inventions will be found allowable.

Early and favorable action on the merits of this application is courteously awaited.

Respectfully submitted,

JACOBSON HOLMAN PLLC
